

How to Setup Data Tracking in TeachMate365

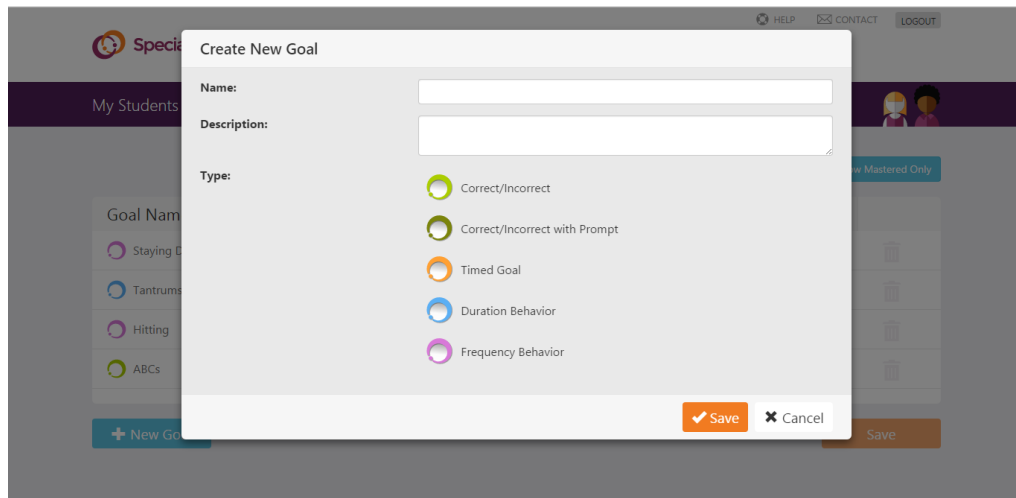

1. Login on your computer: <http://specialneedsware.azurewebsites.net/#/login>

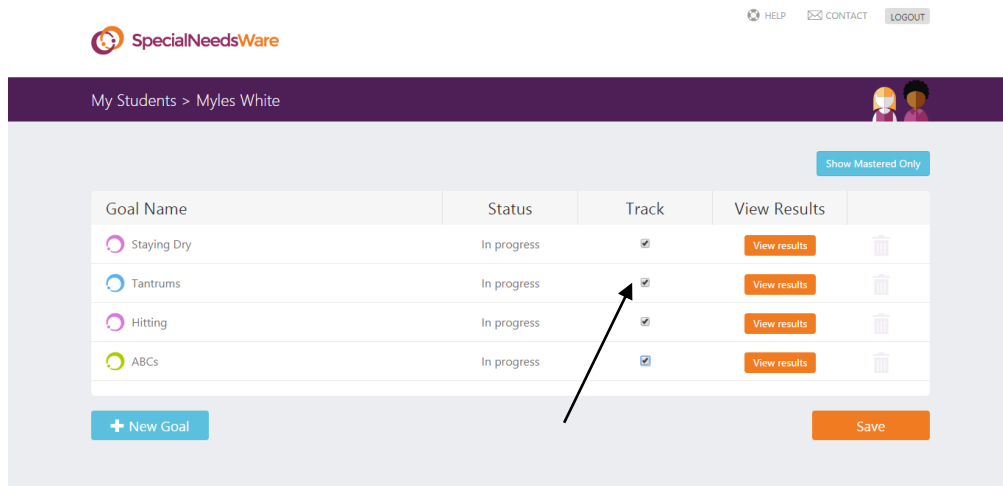

2. Select the student you want to create goals for.

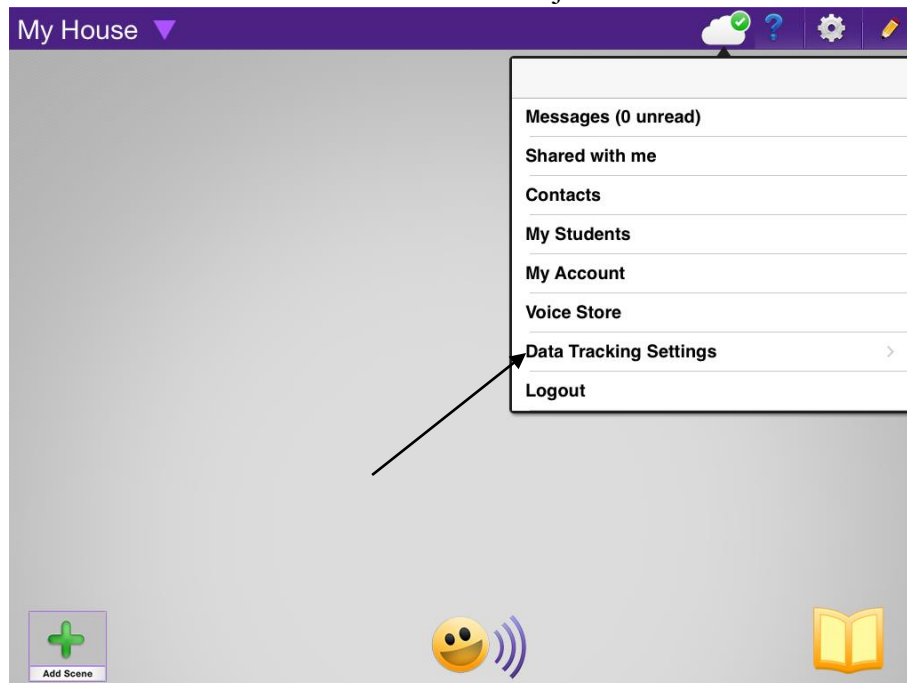

3. Select "New Goal".

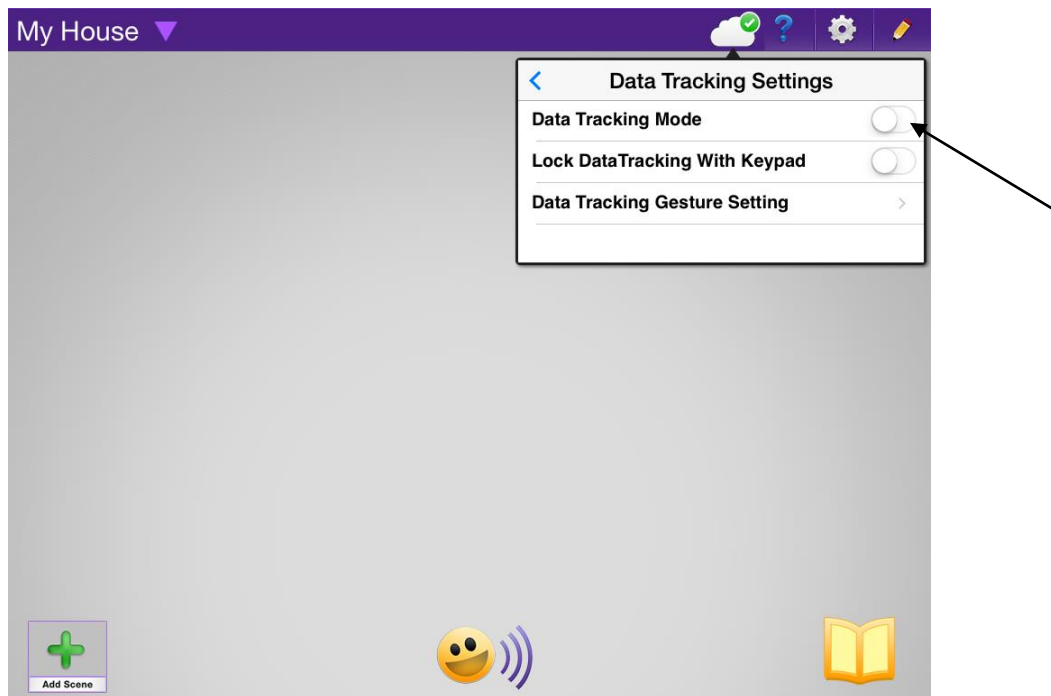

4. Create a goal. Set the parameters. (hint – IEP goals would be GREAT!)

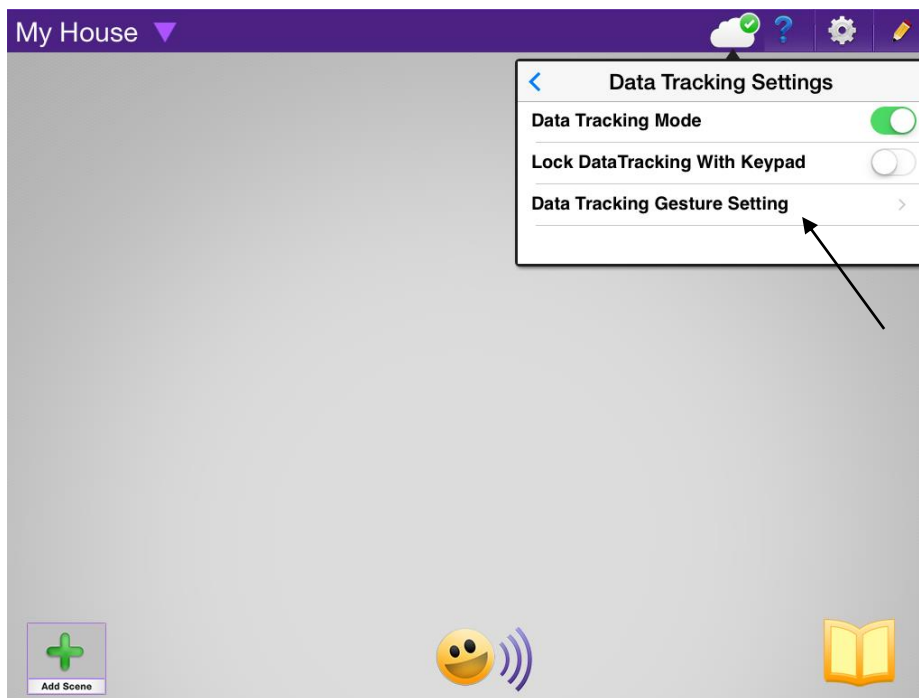

5. Check off “Track” for the defined behaviors/objectives created for data tracking.

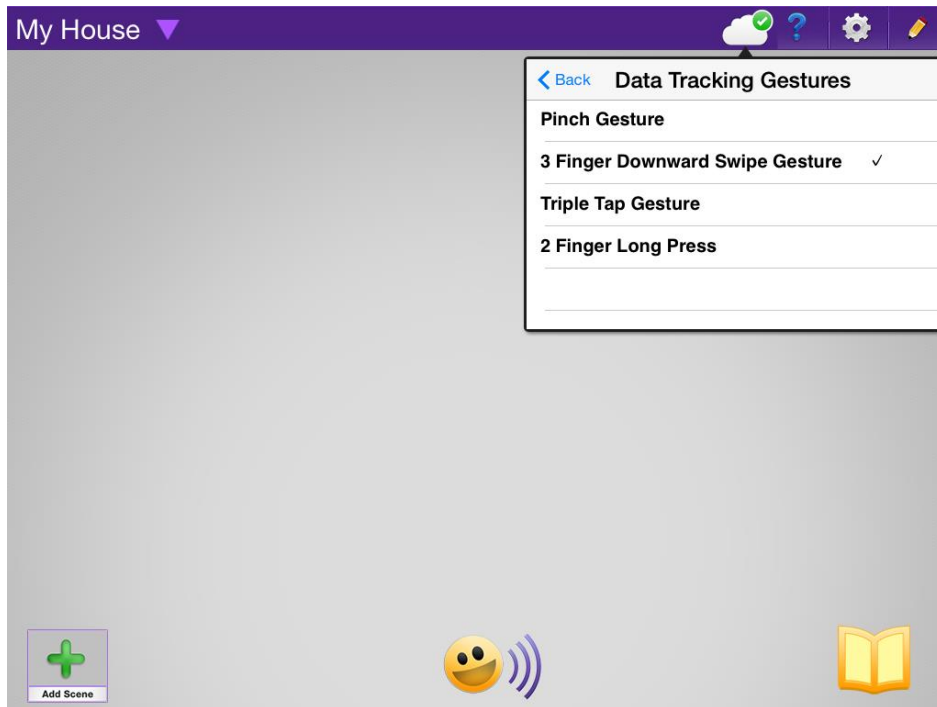

6. Log into your account on the iPad and make sure you are in edit mode. Select “Data Tracking Settings”.

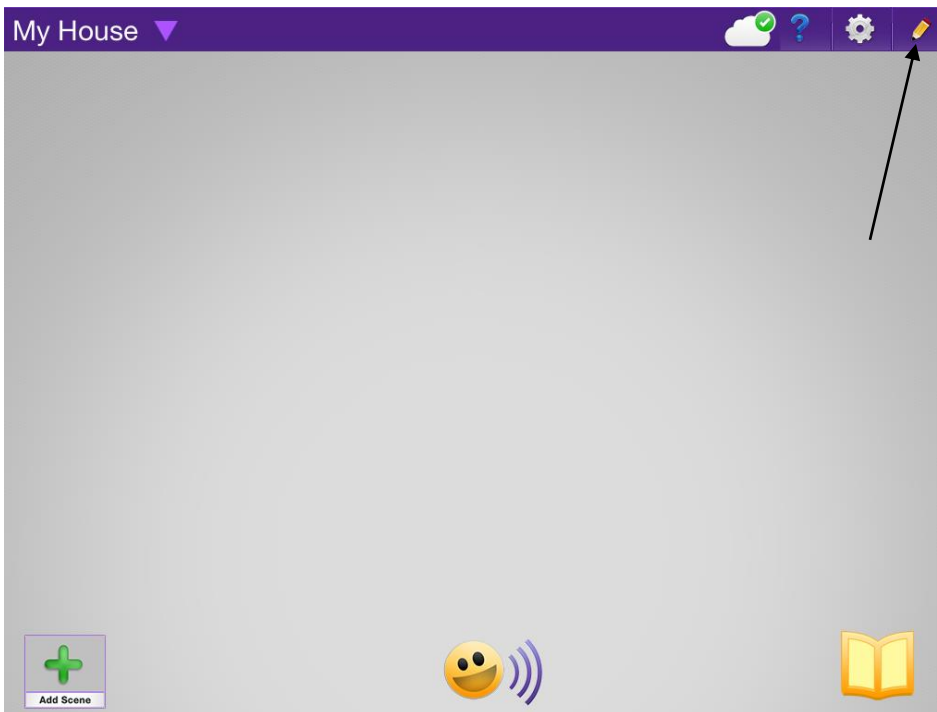

7. Turn “Data Tracking Mode” on by tapping the toggle (it will turn green).

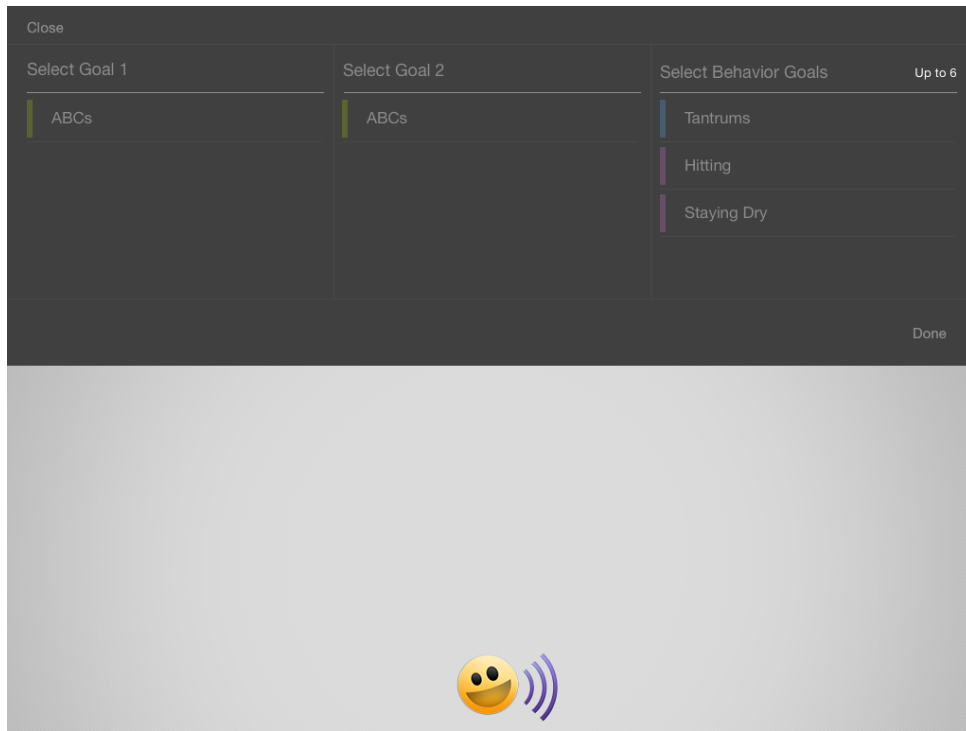

8. Select “Data Tracking Gesture” setting.

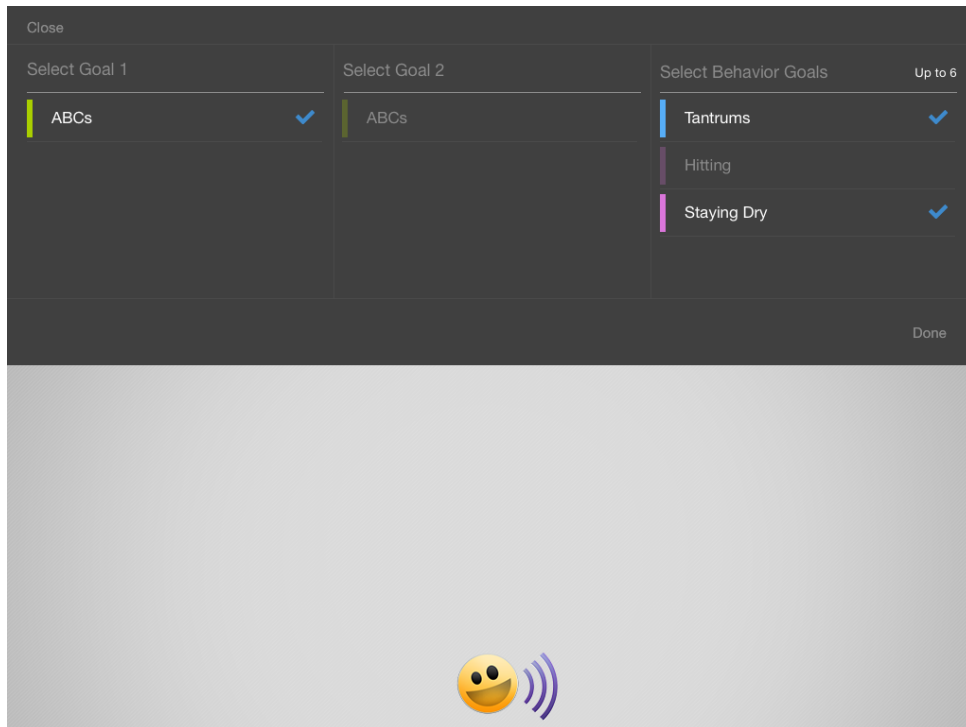

9. Choose your gesture.

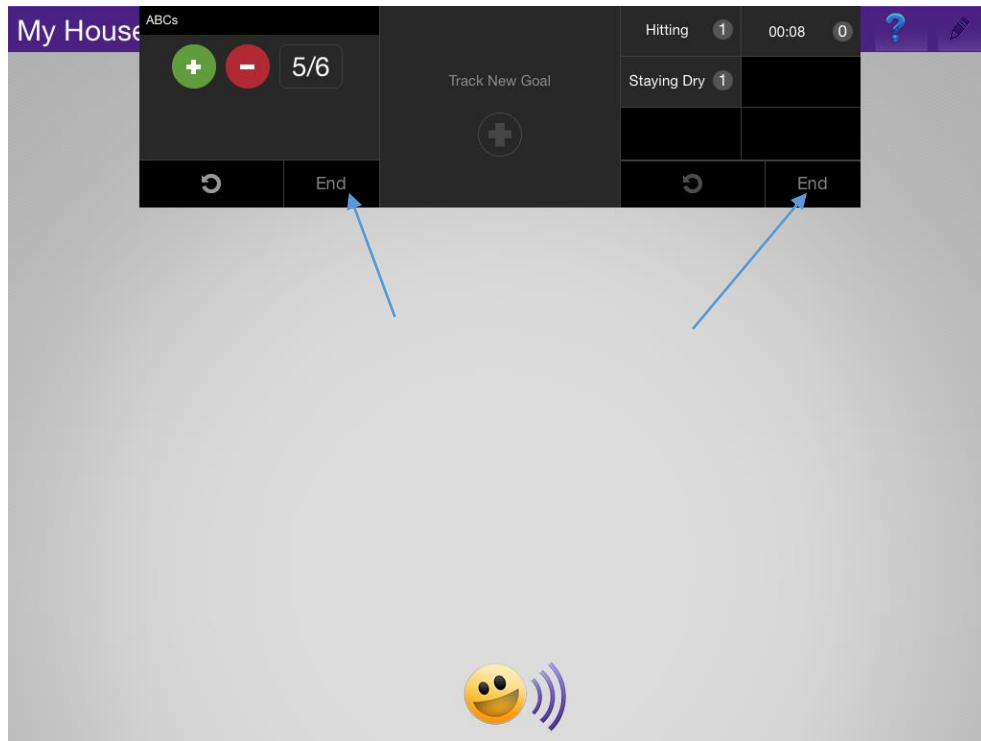

10. Touch the yellow pencil to get out of edit mode.

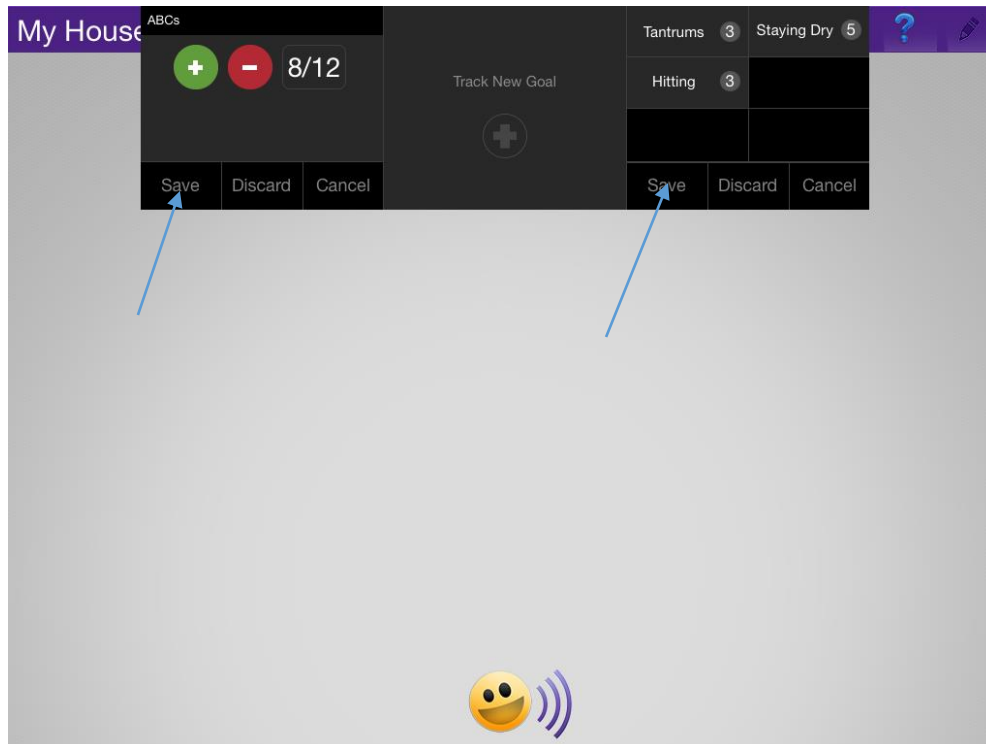

11. Make you gesture within the program and your data tracking goals will pop-up.

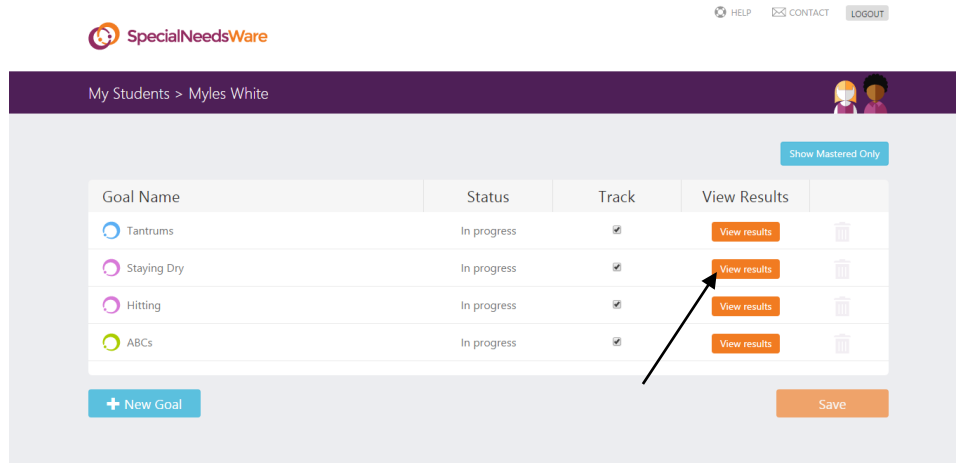

12. Tap on the goals you would like to track.

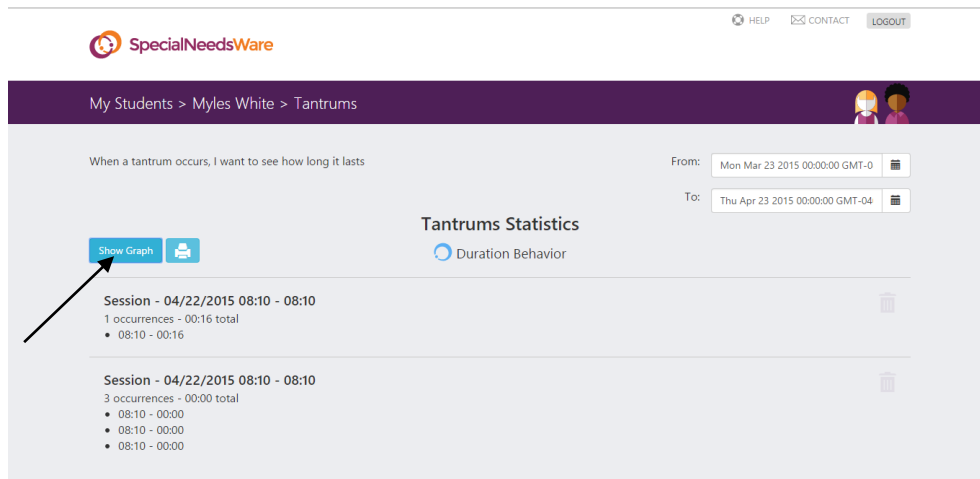

13. Begin tracking the data. When you are finished, touch “end”.

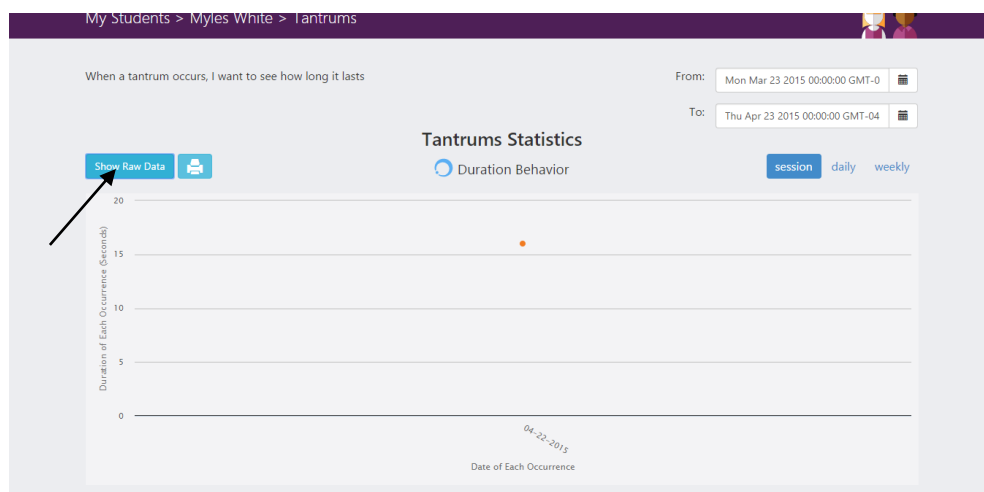

14. Select save.

15. Login back on your computer: <http://specialneedsware.azurewebsites.net/#/login> and Select “View Results”.

16. You can either see the “raw data”,

17. Or graphed data.
